

## **A statement issued by the Gathering of Jerusalemite Societies and Institutions in Jordan**

The Gathering of Jerusalemite Societies and Institutions in Jordan announces its absolute and full support for our steadfast and resistant people in Palestine and in Gaza Strip in particular - Gaza the land of victory, dignity and pride – against the policies of ethnic cleansing committed by the government and the occupation war machine against the women, mothers, children, and young people of Palestine in general and Gaza in particular by this government and its war council declaration of a comprehensive war against the steadfast and resistant Palestinian people.

The policy of genocide, comprehensive destruction, and mass displacement in Gaza, which the Zionist occupation is committing, by live broadcast and directly on watch of the entire world, will not break and will not bring our steadfast people there to their knees in their homeland and property.

This Zionist massacre committed in Gaza is not the first in the Palestinian scene. The record of Zionist massacres is very long. In previous aggressive Israeli wars on Gaza, hundreds of Palestinian families were exterminated, including thousands of children and mothers, while the occupation aircrafts exterminated families in this massacre, up to the moment of writing this statement, entire Palestinian families tolled exceeding fifty families, including about eight hundred (800) Palestinian children and about five hundred (500) Palestinian women and mothers, bringing the number of martyrs as of the tenth day to more than **3000 martyrs** and 12,000 wounded and injured, so that the reality of the Palestinian scene on the land of Gaza Strip today is that the occupation generals are violating by their massacres and crimes all international laws and conventions, and today they are committing what we can call the post-crime, or “open” massacre.

Where is the sanction for these open terrorist Zionist crimes?

Where is the silent world and the United Nations and why does the "terrorist criminal Israel" escape international sanction?

The balance of power in the world has changed and the time is approaching when today's multipolar world will force the Zionist entity's statelet to respect and implement all Security Council resolutions.

We hold the United States of America and the European countries historical responsibility for the tragedy of the Palestinian people, their blatant bias and double standards, and we demand that they stand by the historical right and just cause of the Palestinian people in order to correct their historical mistakes towards right, justice and humanity.

From here, from Jordan, the Battle ground of Dignity, we call on the hands of our people, the steadfast heroes in the Battle of Al-Aqsa Flood, the battle of liberation against the deadly Israeli war machine, and we call on the United Nations, the European Union, human rights organizations and bodies, and the International Criminal Court to all move together and take their legal, moral, and humanitarian responsibilities very quickly, and not to apply double standards in international

issues, not to equate the victim, the occupied peoples, the executioner, and the usurping, occupying colonizer.

Last but not least, glory, all glory and eternity to our honorable martyrs, and a speedy and immediate recovery to the wounded and injured, and all freedom to the brave prisoners, and victory is the ally of our steadfast and resisting Palestinian people until the liberation of Palestine, all of Palestine from the river to the sea.
