

"And you will know the truth, and the truth will set you free." (John 8:32).

The number of Palestinian political prisoners languishing in Israeli military prisons and detention centers has doubled since the start of Israel's genocidal war on Gaza on 7 October, 2023. More than 12,000 Palestinian prisoners are now languishing in detention, including 10 Palestinian Christian prisoners.

Palestinian political prisoners are routinely subjected to various forms of torture and ill-treatment, ranging from starvation, deliberate medical negligence, abuse to rape and other forms. The cancellation of family visits since 7 October 2023 meant that these prisoners were deprived from meeting with their families and with the International Committee of the Red Cross.

At least 24 Palestinian prisoners from the occupied West Bank alone were murdered in these Israeli prisons due to extreme torture or deliberate negligence. It is reported that thousands of additional detained Palestinian political prisoners were forcibly disappeared and until this moment, the Israeli military and prison authorities refuse to disclose their whereabouts, names, and under what conditions they are being held.

Palestinian Christians, as their fellow citizens, are subjected to a brutal Israeli occupation. They constitute an integral part of the Palestinian fabric and the Palestinian people's struggle for their freedom and self-determination.
